WORK EXPERIENCE

Software Development Engineer Amazon

08/2016 - Present

Vancouver, Canada

Achievements/Tasks

- Driving the architecture and design of large-scale, multi-tiered, distributed software applications, tools, systems and services.
- Serving as technical lead throughout the full development lifecycle, end-to-end, from scoping, planning, conception, design, implementation and testing, to documentation, delivery and maintenance.
- Providing design reviews for other engineers, including feedback on architecture and design issues, as well as integration, performance and scalability.
- Managing resources on multiple technical projects and ensuring schedules, milestones, and priorities are compatible with technology and business goals;
